- ES**
- Antes de empezar la instalación, asegúrese de leer este manual. Las piezas deben ser instaladas de acuerdo a las instrucciones.
 - Los requisitos mínimos para la instalación son una presión de al menos 2 bar y un caudal de agua de 14 litros por minuto.
 - Se recomienda instalar un reductor de presión en la toma de agua dedicada al aparato cuando la presión de la red de agua excede los 6 bar.
 - No utilizar otra manguera de suministro de agua distinta a la que se incluye con el producto. El uso de otra manguera podría comprometer el funcionamiento del equipo.

- EN**
- Before installation, read thoroughly this installation manual. All parts must be installed according to the instructions.
 - The minimum requirements for installation are a pressure of at least 2 bar and a water flow rate of 14 litres per minute.
 - It is recommended to install a pressure reducer on the water inlet dedicated to the appliance when the water network pressure exceeds 6 bars.
 - Do not use any other water supply hose other than the one provided with the product. The use of another hose could compromise the operation of the equipment

- FR**
- Avant l'installation, lisez attentivement ce manuel d'installation. Toutes les pièces doivent être installées conformément aux instructions.
 - Il est recommandé d'installer un réducteur de pression sur l'arrivée d'eau dédiée à l'appareil lorsque la pression du réseau d'eau dépasse 6 bars.
 - N'utilisez aucun autre tuyau d'alimentation en eau que celui fourni avec le produit. L'utilisation d'un autre tuyau pourrait compromettre le bon fonctionnement de l'équipement.

- PT**
- Antes da instalação, leia atentamente este manual de instruções de instalação. Todas as peças devem ser instaladas de acordo com as instruções.
 - Os requisitos mínimos para a instalação são uma pressão de pelo menos 2bar e um caudal de água de 14 litros por minuto.
 - Recomenda-se a instalação de um redutor de pressão na entrada de água dedicada ao aparelho quando a pressão da rede hidráulica for superior a 6bar.
 - Não utilize qualquer outra mangueira de abastecimento de água para além da fornecida com o produto. A utilização de outra mangueira pode comprometer o funcionamento do equipamento.”

- PL**
- Przed instalacją należy dokładnie przeczytać niniejszą instrukcję montażu. Wszystkie części muszą być zamontowane zgodnie z instrukcją.
 - Minimalne wymagania instalacyjne to ciśnienie wody co najmniej 2 bar i przepływ wody 14 litrów na minutę.
 - Zaleca się montaż reduktora ciśnienia wody na dopływie wody do urządzenia, gdy ciśnienie wody w sieci wodociągowej przekracza 6 bar.
 - Nie należy używać innego węża doprowadzającego wodę niż ten dostarczony wraz z produktem. Użycie innego węża może zakłócić działanie urządzenia.”

Importante! Verificar caudal antes de instalar

Warning! Check water flow rate before installation

Attention ! Contrôlez le débit d'eau avant installation.

Atenção! Verifique o caudal de água antes da instalação

Uwaga! Sprawdź przepływ wody przed instalacją
